

MIKE BAILEY PAINT SERVICES PROJECT PROFILE

Swan Hill, Victoria Homestead

Project:
50 year old homestead
overlooking Edwards River

Time: Mid 2008

Description:
Internal painting of 50-year old homestead.

A “freshen up” of this home was needed, including feature walls to offset the elegant furnishings and period style furniture.

Further comment: 15 years ago veranda roof was painted in **Energy Star EC100** which is an **insulating and heat reflective membrane**. Owner is extremely happy with the product and is always recommending to friends.

Maintenance: regular washing has kept it working the same as when it was applied.

Enquire about our paint colours and advice to give your home a personality and style that suits your furniture, artefacts and furnishings.
